

## Final Mockup Notes

Designer: Sierra Brandegee

Creative Director: Layla Lee

- I think the width for the mobile view text can be less wide (some of the text feels a bit dense)
- I like the sans serif font you chose and changing the header font is working really well
- I think the organization is clear and straightforward
- I love the integration of the pictures
- I think I would prefer if the titles (Early Life) would align with the body text!
